Northamptonshire
NN10 0XL

What is Lampworking?

Lampworking is the ancient art of melting glass on a hot torch, wrapping it around a mandrel and shaping it into beads or sculpting into other forms.

About your workshop

In this workshop you will learn to melt glass rods at the torch and sculpt into floral forms.
For those who have no experience in lampworking we will learn to create simple flowers and leaves.
For those who have experience of torch we will explore more complex flowers.

The workshop includes:

- Health & Safety information and all of the necessary protective equipment required to wear while at the torch
- All of the materials required to create your flowers
- Tuition for a selection of flower styles and designs
  Kiln annealing of all flowers made on the day
- A small vase in which to display your flowers
- Tea, coffee and biscuits throughout the day plus light lunch (we are a 5 star food hygiene rated catering venue too!)
  Techniques covered and number of flowers made will depend on your experience and speed

What will I make?

This depends on your speed, but most people will make between 5 – 10 flowers and or leaves.
You will also receive all of the flowers made by your tutor.

Important
Please wear closed-toe shoes as you will be working in a glass studio. Also natural fibre clothing if possible.

Price effective from 16/10/2026
