07970 665 331 (studio)

Location:
FiredGlass Studio
28 Yarrow Close
Rushden
Northamptonshire
NN10 0XL

What is Lampworking?

Lampworking is the ancient art of melting glass on a hot torch, blowing or sculpting into forms, or beadmaking.

About your workshop

In this workshop you will learn to melt glass rods at the torch and sculpt into floral forms.
For those who have no experience in lampworking we will learn to create simple flowers and leaves.

We have 1 torch in the Firedglass studio so if 2 people are booked, you will take it in turns to sculpt your flowers but the time increases to 3 hours to ensure you have enough torch time.

The workshop includes:

- Health & Safety information and all the necessary protective equipment required to wear while at the torch
- All the materials required to create your flowers
- Tuition for simple flowers and leaves
  Kiln annealing of all flowers made on the day
- Tea, coffee and biscuits throughout the day plus light lunch (we are a 5 star food hygiene rated catering venue too!)

What will I make?

Students typically make at least 2 flowers and several leaves each in this timescale. These will be assembled into a spray which you will collect once annealed in the kiln.

Important
Please wear closed-toe shoes as you will be working in a glass studio. Also natural fibre clothing if possible.

Price effective from 01/12/2026
